An open-ended question with respect to suggestions regarding addition or deletion in syllabus was asked to which the major recommendation which were received are as follows:

- 1. Introduction of new software in IT courses which are more relevant to the market needs today
- 2. The syllabus should be balanced with respect to theory and practical content
- 3. Newer research tools and software should be incorporated in syllabus
- 4. The undergraduate syllabus should include topics which are in alignment with master's programme (in India and abroad)
