PM-VIDYA LAXMI PORTAL FOR APPLYING EDUCATIONAL LOANS

Our college is the only educational institution in the region of Chandigarh, Panchkula and Mohali to have been selected under this landmark initiative launched by the UGC. Out of an overwhelming 51.918 higher educational institutions nationwide, only 860 colleges have been chosen. The college's selection for this prestigious scheme reflects its unwavering commitment to student welfare, financial inclusion, and academic excellence. By bridging financial gaps and empowering students with accessible education loan facilities, the institution continues to pave the way for a brighter, more inclusive future in higher education.

The Government of India has approved PM-Vidyalaxmi scheme to provide financial support to meritorious students so that financial constraints do not prevent any youth of India from pursuing quality higher education. A special loan product has been introduced to enable for collateral free, guarantor free education loans to meritorious students who get admission in the top 860 quality higher educational institutions of the nation; made accessible through a simple, transparent, student-friendly and entirely digital application process. Furthermore, for students with up to Rs. 8 lakhs annual family income, the scheme will also provide for 3% interest subvention on loans up to Rs. 10 lakh.

The Vidya Lakshmi Portal, developed under the guidance of the Department of Financial Services (Ministry of Finance), Department of Higher Education (Ministry of Education), and the Indian Banks Association (IBA), serves as a one-stop digital platform where students can seamlessly view, apply for, and track their education loan applications. Managed by Protean eGov Technologies Limited (formerly NSDL eGovernance Infrastructure Limited), the portal simplifies the process of securing financial assistance, empowering students with the resources they need to pursue their dreams.

Recognizing the pressing need for equitable access to quality education, the University Grants Commission (UGC) has long advocated for financial support to meritorious but economically weaker students. The Reserve Bank of India (RBI) has issued guidelines to all commercial banks, leading to the establishment of various student loan schemes. These schemes offer loans of up to Rs. 7.5 lakh for studies in India and Rs. 15 lakh for studies abroad, with no collateral or margin required for loans up to Rs. 4 lakh. Additionally, the interest rate for these loans does not exceed the Prime Lending Rate (PLR), ensuring affordability. For higher loan amounts, the interest rate remains within PLR plus 1 percent, with a flexible repayment period of five to seven years and a grace period of one year after course completion.

The NCC certificate carries weightage at the time of admission to higher classes and also gives the chance to join the armed forces directly for interview without appearing for any exam.

If any student wishes to join the NCC, he can join at the time of commencement of the academic session. The student should be good both in mental and physical standards and in general knowledge. Any student suffering from any ailment or medical problem such as Asthma, Thalassemia, Knocking Knees, Flat Foot etc. is not allowed to opt for NCC. To get the certificate, it becomes compulsory for a cadet to attend two camps during the three years of stay in college and participate in certain service attachments, as decided by the authorities. As a part of this organization, cadets are groomed for joining the armed forces as the commissioned officers.

Besides all this, cadets are also offered the opportunities to participate in additional service training programs like Republic Day Parade at Delhi, Thal Sainik Camp, Basic and Advanced Leadership Camp, National Integration Camp, Army Attachment, Mountaineering & Trekking Camps etc throughout India. All the camps are organized under the guidance & supervision of DG NCC, New Delhi.

NCC Girls'- The NCC has achieved a remarkable national average of 37% in girl cadet enrolment. Efforts to set an exemplary position of gender equality are initiated under which NCC targets a national average of 40% girls' enrolment. This step would go a long way in promoting women empowerment in the society and spreading the message of equal rights guaranteed in our constitution. Reaching 40% at the national level is possible only if mixed battalions of NCC go beyond 33% mark in girls' enrolment. The NCC Unit in the college promotes enrolment of girls and targets to take net ratio of girl cadets to 40%.

b. NATIONAL SERVICE SCHEME (NSS)

Motto : "Not Me, But You"

The college operates two National Service Scheme (NSS) units, each comprising 100 volunteers, one for men and one for women. The main objective of NSS is to instill a sense of social responsibility in students through community service, fostering their active involvement in constructive activities within the college campus and the adopted village of Burail, Sector 45, Chandigarh. Enrolment in NSS is open to students from all classes. To complete the NSS program successfully, each volunteer must dedicate a minimum of 120 hours of service during one session.

The NSS programs encompass four key aspects: institutional work, institutional projects, rural projects, and urban projects. These initiatives, whether conducted as part of regular activities or special camping, aim to address various societal needs, and contribute to community development. Through institutional work, volunteers engage in activities within the college campus to foster a culture of social responsibility and promote positive change among their peers. Institutional projects involve collaborative efforts to address specific issues or implement projects that benefit the college community.

In rural projects, NSS volunteers actively participate in activities aimed at improving the lives of residents in the adopted village and its surrounding areas. This may include initiatives such as healthcare camps, sanitation drives, educational programs, and infrastructure development projects to uplift the rural population. Similarly, in urban projects, volunteers extend their support to communities in urban areas, addressing issues such as environmental conservation, public health awareness, skill development programs, and civic engagement initiatives.

Throughout the year, volunteers engage in various activities such as the Fit India Campaign, International Day of Yoga, SwachhtaPakhwada, AIDS prevention awareness rallies, Dengue prevention drives in the adopted village, self-defense training, teaching underprivileged children, and organizing collection drives for plastic and e-waste, among others. Additionally, 100 selected volunteers attend a Special Annual Camp. Those showing exceptional enthusiasm may also participate in Pre-RD camps, National Integration Camps, National Youth Festivals, Adventure Camps, and Cultural Fests organized by the Regional Directorate of NSS, Chandigarh.

By engaging in these diverse projects and activities, NSS volunteers not only contribute to the betterment of society but also gain valuable skills, experiences, and perspectives that shape them into responsible and empathetic individuals. They not only become socially responsible citizens but also receive certificates that hold additional weightage during placements and admission to higher classes.

NOTE: It is important to note that NCC cadets are ineligible to join NSS, and similarly, NSS volunteers are not permitted to participate in NCC or any other youth organization while they are active members of NSS.

As per decision of the Panjab University Chandigarh NSS volunteers from PU and colleges affiliated to it will now get certificates with three grades--A, B and C and they will get additional weightage while applying for higher education.

STUDENT ELECTIONS

The members of the student's council of the college are selected through a peaceful, free fair election, conducted annually by the college. The entire election process follows the recommendations of Lyngdoh Committee in letter and spirit.

The nominations for the posts of President, Vice-President, General Secretary, Joint Secretary and Class Representatives are invited and scrutinized by the Office of Dean, Student's Welfare for their validity. Only those students can apply for the said post who has attended 75% of an attendance till the time & date of nomination. For more clarification, kindly refer to Lyngdoh Committee. Subsequently, after the last date of withdrawal of the nominations, final list of contesting candidates is declared and the election is held on the assigned date. The result is declared on the same day as the elections.

The tenure of the elected body is valid for one academic session.

The following are recommendation of the Committee accepted by the Hon'ble Supreme Court for implementation:

- 6.1.1** Universities and colleges across the country must ordinarily conduct elections for the appointment of students to student representative bodies. These elections may be conducted in the manner prescribed herein, or in a manner that conforms to the standards prescribed herein.
- 6.1.2** Where the atmosphere of the university campus is adverse to the conduct of peaceful, free and fair elections, the university, its constituent colleges and departments must initiate a system of student representation based on nominations, especially where elections are being held at present. It would be advisable, however, not to base such nomination system on purely academic merit, as is being practiced throughout the country.
- 6.1.3** In cases where elections are not being held, or where the nomination model prevails, the nomination model should be allowed to continue for a limited period of time. It is to be noted that the nomination system suffers from several flaws, and must only be resorted to as an INTERIM MEASURE.
- 6.1.4** Subject to the recommendations in respect of the possible models of elections, all institutions must, over a period of 5 years, convert from the nomination model to a structured election model, that may be based on a system of parliamentary (indirect) elections, or on the presidential (direct) system, or a hybrid of both. It is highly desirable that all institutions follow this mechanism of gradual conversion, especially for privately funded institutions that prefer a status quo situation.
- 6.1.5** All institutions must conduct a review of the student representation mechanism. The first review may be conducted after a period of 2 years of the implementation of the mechanism detailed above, and the second review may be conducted after the 3rd or the 4th year of implementation. The primary objective of these reviews will be to ascertain the success of the representation and election mechanism in each individual institution, so as to decide whether or not to implement a full- fledged election structure. Needless to say these reviews will be based on a consideration of the views and suggestions of all stakeholders, such as students, faculty, administration, student bodies, and parents.
- 6.1.6** Institutions must, as a primary objective, subject to the pertinent issue of discipline on campus, seek to implement a structured system of student elections by the conclusion of a period of 5 years from the date of the implementation of these recommendations.

6.1.7 Subject to the autonomy of the universities in respect of the choice of the mode of election, all universities must institute an apex student representative body that represents all students, colleges, and departments coming under the particular university. In the event that the university is geographically widespread, individual colleges may constitute their own representative bodies, which would further elect representatives for the apex university body.

6.1.8 The union/representative body so elected shall only comprise of regular students on the rolls of the institution. No faculty member, nor any member of the administration shall be permitted to hold any post on the executive of such representative body, nor shall be allowed to be a member of any such representative body.

6.2 Modes of Elections

6.2.1 A system of direct election of the office bearers of the student body whereby all students of all constituent colleges, as well as all students of the university departments vote directly for the office bearers. This model may be followed in smaller universities with well-defined single campuses (for e.g. JNU/University of Hyderabad), and with a relatively smaller student population. A graphic representation of this model is annexed herewith at Annexure IV-A.

In respect of universities with large, widespread campuses and large student bodies, either of the following models may be adopted:

6.2.2 A system of elections, where colleges and campuses directly elect college and campus office bearers, as well as university representatives. The university representatives form an electoral college, which shall elect the university student union office bearers. A graphic representation of this model is annexed herewith at Annexure IV-B.

6.2.3 A system of elections where on one hand, directly elected class representatives elect the office bearers of the college as well as the university representatives, and the campus itself directly elects the campus office bearers and the university representatives. The university representatives shall form an electoral college, which shall elect the office bearer of the university student union. A graphic representation of this model is annexed herewith at Annexure IV-C.

6.2.4 A system of election wherein class representatives shall be directly elected in the colleges and universities campus and they in turn shall elect the office bearers for the college unions and the university campus union. Also they shall elect their representatives for university student union. These elected representatives from colleges and university campus shall form the Electoral College, which shall elect the office bearers of the university student union. This model shall be applicable to large university with large number of affiliated colleges. A graphic representation of this model is annexed herewith at Annexure IV-D.

6.3 Disassociation of Student Elections and Student Representation from Political Parties

6.3.1 During the period of the elections no person, who is not a student on the rolls of the college/university, shall be permitted to take part in the election process in any capacity. Any person, candidate, or member of the student organisation, violating this rule shall be subject to disciplinary proceedings, in addition to the candidature, as the case may be, being revoked.

6.4 Frequency and Duration of the Election Process

- 6.4.1** It is recommended that the entire process of elections, commencing from the date of filing of nomination papers to the date of declaration of results, including the campaign period, should not exceed 10 days.
- 6.4.2** It is further recommended that elections be held on a yearly basis and that the same should be held between 6 to 8 weeks from the date of commencement of the academic session.

6.5 Eligibility Criteria for Candidates

- 6.5.1** Under graduate students between the ages of 17 and 22 may contest elections. This age range may be appropriately relaxed in the case of professional colleges, where courses often range between 4 to 5 years.
- 6.5.2** For Post Graduate Students the maximum age limit to legitimately contest and election would be 24-25 years.
- 6.5.3** For research Students the maximum age limit to legitimately contest an election would be 28 years.
- 6.5.4** Although, the Committee would refrain from prescribing any particular minimum marks to be attained by the candidate, the candidate should in no event have any academic arrears in the year of contesting the election.
- 6.5.5** The candidate should have attained the minimum percentage of attendance as prescribed by the university or 75% attendance, whichever is higher.

To effectuate this purpose, the following rules should prevail at all hearings:

Written opinions shall set a precedent for a time period of three election cycles for Grievance cell rulings, and shall guide the Grievance cell in its proceedings. Upon consideration of prior written opinions, the grievance cell may negate the decision, but must provide written documentation of reasons for doing so.

- If the decision of the Grievance cell is appealed to the institutional head, the Grievance cell must immediately submit its ruling to the commission.
- The Grievance cell shall select the remedy or sanction most appropriate to both the type and severity of the infraction, as well as the state of mind or intent of the violator as determined by the Grievance cell. - Any fine or total amount of fines against a candidate in an election cycle may not exceed the spending limit as defined herein above.
- If, after a hearing, the Grievance cell finds that provisions of this Code were violated by a candidate, or a candidate's agents or workers, the Grievance cell may restrict the candidate, or the candidates agents or workers, from engaging in some or all campaign activities for some or all of the remainder of the campaign. If an order is issued covering only part of the remaining campaign period, it shall take effect immediately so that after its termination, the candidate will have an opportunity to resume campaigning during the days immediately prior to and including the election days.
- If, after a hearing, the Grievance cell finds that provisions of either this Code or decisions, opinions, orders, or rulings of the Grievance cell have been willfully and blatantly violated by a candidate, or a candidate's agents or workers, the Grievance cell may disqualify the candidate.
- Any party adversely affected by a decision of the Grievance cell may file an appeal with the institutional head within twenty-four (24) hours after the adverse decision is announced. The institutional head shall have discretionary appellate jurisdiction over the Grievance cell in all cases in which error on the part of the Grievance cell is charged.
- The decision of the Grievance cell shall stand and shall have full effect until the appeal is heard and decided by the institutional head.
- The institutional head shall hear appeals of Grievance cell rulings as soon as possible, but not within twenty-four (24) hours after the Grievance cell delivers to the Appellant and the institutional head a copy of its written opinion in the case. Appeal may be heard prior to this time, but only if the Appellant waives the right to a written opinion and the institutional head agrees to accept the waiver.
- The institutional head can issue suitable orders to suspend or halt the operation of the ruling issued by the Grievance cell until the appeals are decided.
- The institutional head shall review findings of the Grievance cell when appealed. The institutional head may affirm or overturn the decision of the Grievance cell, or modify the sanctions imposed.

3. Responsibilities of the Higher Educational Institution- (1) Every HEI shall,-

- (a) Wherever required, appropriately subsume the spirit of the above definitions in its policy and regulations on prevention and prohibition of sexual harassment against the employees and the students, and modify its ordinances and rules in consonance with the requirements of the Regulations:
- (b) publicly notify the provisions against sexual harassment and ensure their wide dissemination;
- (c) organise training programmes or as the case may be, workshops for the officers, functionaries, faculty and students, as indicated in the SAKSHAM Report (Measures for Ensuring the Safety of Women and Programmes for Gender Sensitization on Campuses) of the Commission, to sensitize them and ensure knowledge and awareness of the rights, entitlements and responsibilities enshrined in the Act and under these regulations;
- (d) act decisively against all gender based violence perpetrated against employees and students of all sexes recognising that primarily women employees and students and some male students and students of the third gender are vulnerable to many forms of sexual harassment and humiliation and exploitation;
- (e) publicly commit itself to a zero tolerance policy towards sexual harassment;
- (f) reinforce its commitment to creating its campus free from discrimination, harassment, retaliation or sexual assault at all levels;
- (g) create awareness about what constitutes sexual harassment including hostile environment harassment and quid pro quo harassment;
- (h) include in its prospectus and display prominently at conspicuous places or Notice Boards the penalty and consequences of sexual harassment and make all sections of

the institutional community aware of the information on the mechanism put in place for redressal of complaints pertaining to sexual harassment, contact details of members of Internal Complaints Committee, complaints procedure and so on. Any existing body already functioning with the same objective (like the Gender Sensitization Committee Against Sexual Harassment (GSCASH)) should be reconstituted as the ICC; Provided that in the latter case the HEI shall ensure that the constitution of such a Body is as required for ICC under these regulations. Provided further that such a Body shall be bound by the provisions of these regulations;

- (i) inform employees and students of the recourse available to them if they are victims of sexual harassment;
 - (j) organise regular orientation or training programmes for the members of the ICC to deal with complaints, steer the process of settlement or conciliation, etc., with sensitivity;
 - (k) proactively move to curb all forms of harassment of employees and students whether it is from those in a dominant power or hierarchical relationship within HEIs or owing to intimate partner violence or from peers or from elements outside of the geographical limits of the HEI;
 - (l) be responsible to bring those guilty of sexual harassment against its employees and students to book and initiate all proceedings as required by law and also put in place mechanisms and redressal systems like the ICC to curb and prevent sexual harassment on its campus;
 - (m) treat sexual harassment as a misconduct under service rules and initiate action for misconduct if the perpetrator is an employee;
 - (n) treat sexual harassment as a violation of the disciplinary rules (leading up to rustication and expulsion) if the perpetrator is a student;
 - (o) ensure compliance with the provisions of these regulations, including appointment of ICC, within a period of sixty days from the date of publication of these regulations;
 - (p) monitor the timely submission of reports by the ICC;
 - (q) prepare an annual status report with details on the number of cases filed and their disposal and submit the same to the Commission.
- 3.2 Supportive measures.-(1) The rules, regulations or any such other instrument by which ICC shall function have to be updated and revised from time-to-time, as court judgments and other laws and rules will continue to revise the legal framework within which the Act is to be implemented.
- (2) The Executive Authority of the HEIs must mandatorily extend full support to see that the recommendations of the ICC are implemented in a timely manner. All possible institutional resources must be given to the functioning of the ICC, including office and building infrastructure (computers, photocopiers, audio-video, equipment, etc.), staff (typists, counselling and legal services) as, well as a sufficient allocation of financial resources.

- (3) Vulnerable groups are particularly prone to harassment and also find it more difficult to complain. Vulnerability can be socially compounded by region, class, caste, sexual orientation, minority identity and by being differently abled. Enabling committees must be sensitive to such vulnerabilities and special needs.
- (4) Since research students and doctoral candidates are particularly vulnerable the HEIs must ensure that the guidelines for ethics for Research Supervision are put in place.
- (5) All HEIs must conduct a regular and half yearly review of the efficacy and implementation of their anti-sexual harassment policy.
- (6) All Academic Staff Colleges (now known as Human Resource Development Centres (HRDCs) and Regional Centres for Capacity Building (RCCBs) must incorporate sessions on gender in their orientation and refresher courses. This should be across disciplines, and preferably mainstreamed using the UGC SAKSHAM Report which provides indicative modules in this regard.
- (7) Orientation courses for administrators conducted in HEIs must have a module on gender sensitization and sexual harassment issues. Regular workshops are to be conducted for all sections of the HEI community.
- (8) Counselling services must be institutionalised in all HEIs and must have well trained full-time counsellors.
- (9) Many HEIs having large campuses have a deficit in lighting and are experienced as unsafe places by the institutional community. Adequate lighting is a necessary aspect of infrastructure and maintenance.
- (10) Adequate and well trained security including a good proportion or balance of women security staff is necessary. Security staff must receive gender sensitization training as a part of conditions of appointment.
- (11) HEIs must ensure reliable public transport, especially within large campuses between different sections of the HEI, hostels, libraries, laboratories and main buildings, and especially those that do not have good access for day scholars. Lack of safety as well as harassment is exacerbated when employees and students cannot depend on safe public transport. Reliable transport may be considered by HEIs to enable employees and students to work late in libraries, laboratories and to attend programmes in the evenings.
- (12) Residential HEIs should accord priority to construction of women's hostels. For the growing population of young women wishing to access higher education, hostel accommodation is desirable in both urban and rural areas and at all levels of higher education which provides a modicum of protection from harassment of all kinds.
- (13) Concern for the safety of women students must not be cited to impose discriminatory rules for women in the hostels as compared to male students. Campus safety policies should not result in securitization, such as over monitoring or policing or curtailing the freedom of movement, especially for women employees and students.
- (14) Adequate health facilities are equally mandatory for all HEIs. In the case of women this

must include gender sensitive doctors and nurses, as well as the services of a gynaecologist.

- (15) The Women's Development Cells in colleges shall be revived and funded to be able to carry out the range of activities required for gender sensitization and remain autonomous of the functioning of anti sexual harassment committees and ICCs. At the same time they shall extend their activities to include gender sensitization programmes in consultation with ICCs and help to disseminate anti- sexual harassment policies on campuses on a regular basis. The 'cultural space and the 'formal academic space' need to collaborate to render these workshops innovative, engaging and non- mechanical.
- (16) Hostel Wardens, Provosts, Principals, Vice Chancellors, Legal Officers and other functionaries must be brought within the domain of accountability through amendments in the rules or Ordinances where necessary.
4. Grievance redressal mechanism. (1) Every Executive Authority shall constitute an Internal Complaints Committee (ICC) with an inbuilt mechanism for gender sensitization against sexual harassment. The ICC shall have the following composition:-
- (a) A Presiding Officer who shall be a woman faculty member employed at a senior level (not below a Professor in case of a university, and not below an Associate Professor or Reader in case of a college) at the educational institution, nominated by the Executive Authority;
- Provided that in case a senior level woman employee is not available, the Presiding Officer shall be nominated from other offices or administrative units of the workplace referred to in sub-section 2(0);
- Provided further that in case the other offices or administrative units of the workplace do not have a senior level woman employee, the Presiding Officer shall be nominated from any other workplace of the same employer or other department or organization;"
- (b) two faculty members and two non-teaching employees, preferably committed to the cause of women or who have had experience in social work or have legal knowledge, nominated by the Executive Authority;

- (5) The Member appointed from amongst the non-governmental organizations or associations shall be paid such fees or allowances for holding the proceedings of the Internal Committee, by the Executive Authority as may be prescribed.
- (6) Where the Presiding Officer or any member of the Internal Committee:
 - (a) contravenes the provisions of section 16 of the Act; or
 - (b) has been convicted for an offence or an inquiry into an offence under any law for the time being in force is pending against him; or
 - (c) he has been found guilty in any disciplinary proceedings or a disciplinary proceeding is pending against him; or
 - (d) has so abused his position as to render his continuance in office prejudicial to the public interest, such Presiding Officer or Member, as the case may be, shall be removed from the Committee and the vacancy so created or any casual vacancy shall be filled by fresh nomination in accordance with the provisions of this section.”
5. Responsibilities of Internal Complaints Committee (ICC) The Internal Complaints Committee shall:
 - (a) provide assistance if an employee or a student chooses to file a complaint with the police;

person for making the complaint in writing:

Provided further that the ICC may, for the reasons to be accorded in the writing, extend the time limit not exceeding three months, if it is satisfied that the circumstances were such which prevented the person from filing a complaint within the said period."

Friends, relatives, Colleagues. Co-students, Psychologist, or any other associate of the victim may file the complaint in situations where the aggrieved person is unable to make a complaint on account of physical or mental incapacity or death.

The Executive Authority of the HEI shall proceed only after considering the reply or hearing the aggrieved person.
- (7) The aggrieved party may seek conciliation in order to settle the matter. No monetary settlement should be made as a basis of conciliation. The HEI shall facilitate a conciliation process through ICC. as the case may be, once it is sought. The resolution of the conflict to the full satisfaction of the aggrieved party wherever possible, is preferred to purely punitive intervention.
- (8) The identities of the aggrieved party or victim or the witness or the offender shall not be made public or kept in the public domain especially during the process of the inquiry.
9. Interim redressal-The HEI may,
 - (a) transfer the complainant or the respondent to another section or department to minimise the risks involved in contact or interaction, if such a recommendation is made by the ICC;

- (b) grant leave to the aggrieved with full protection of status and benefits for a period up to three months;

If the ICC concludes that the allegations made were false, malicious or the complaint was made knowing it to be untrue, or forged or misleading information has been provided during the inquiry, the complainant shall be liable to be punished as per the provisions of sub-regulations (1) of regulations 10, if the complainant happens to be an employee and as per sub-regulation (2) of that regulation, if the complainant happens to be a student. However, the mere inability to substantiate a complaint or provide adequate proof will not attract attention against the complainant. Malicious intent on the part of the

HEALTHY PRACTICES

Quality education has several dimensions like imparting domain specific knowledge, creating skills, practical use of knowledge of skills, overall development of the personality for greater creativity and productivity, raising the spiritual quotient of students and creating socially responsible citizens. Realizing these important dimensions of education, the institution has adopted several healthy practices for the attainment of these objectives. These include the following:

- **Social Awareness & Concern-** The institute helps to organize exhibitions and workshops for fundraising, medical awareness and adult education. Such participation makes students aware of significant contemporary social issues and thereby contributes to the social and national development positively. Other than numerous such camps and drives, the college also runs an organization of students and college alumni, ASHRA (Association of Students for Human Rights Awareness), which generates a strong sense of involvement and commitment in the students.
- **Manav Dharma Kendra** has been a crucial part of the institution right from its inception. It aims to inculcate sound moral and ethical values amongst all the students of the college. It organizes activities during the entire academic session to elevate the spiritual quotient of the students, besides fostering ideals of a cosmopolitan outlook and universal brotherhood. All students are thus encouraged to become enlightened and awakened citizens of the society.
- **Outreach Programmes-** The college aims at inculcating a deep sense of social concern amongst all its students. In order to extend a helping hand to the needy in our society and to ameliorate their condition, the college launches numerous outdoor camps which include eye check-up camps, dental check-up camps and blood testing camps in the slum areas, in and around Chandigarh. Students are encouraged to work with the SD Adarsh Foundation, our college NGO and be an active member in each academic session. The college recognizes and celebrates such service rendered by the students and honours them in turn with Certificates of Distinction.
- **Participative Learning-** Students are encouraged to organize different events that may be general in nature or specifically related to their subject. Such exercises help the students in applying the knowledge acquired in the classrooms, as they put to use their different sets of skills in the practical world. Every year the students of Journalism bring out an in-house newsletter "Expressions," through which they not only hone their writing and editing skills, but also gain first hand practical experience of page making and page designing. The students are also encouraged to edit various publications of the college, including the college magazine 'Tyagmurti.' It is through such endeavours that the students gain actual hands-on experience that holds them in good stead.
- **Cultural Enlightenment-** The college organize numerous cultural fests and fairs throughout the session. We also celebrate all important festivals and days that are integral to our history and culture. The endeavour is to encourage the students to participate zealously in these celebrations and thereby acquaint themselves with the significance of these occasions. Some of the important days and festivals that we celebrate with full fervour in college include the Independence Day, the Republic Day, Janamashtami, Teej, Gurpurab, Diwali, Lohri, Basant Panchami, Baisakhi and Navratras, etc. We believe that such initiatives go a long way in sensitizing the students about the rich cultural heritage that India is endowed with.

- **Health and Wellness-** The college organizes various health and wellness camps, talks, workshops, seminars etc to cater to strengthening socio-psychological competency of both students and teachers. Medical testing camps, stress management workshops, interactions related to mental health and well being are all part of this initiative.
- **Enhancing Entrepreneurial and Employability Skills-** As part of our continuous focus on the overall development of the students, we constantly encourage and make efforts to train them to enhance their potential market employability.

STUDENT BODY

The framework helps streamline operations, facilitate communication and collaboration, and ensure effective management of resources and efforts within the Institution's Innovation Council. The IIC framework establishes a clear hierarchy, defining roles, responsibilities, and reporting structures for effective coordination and execution of initiatives aimed at fostering innovation and entrepreneurship within the educational institution. This structured approach empowers individuals with clear mandates, enhancing collaboration and transparency.

The student body and events are handled by six Student Coordinators who also manage the Start-up Cell and the five committees i.e Marketing, Documentation & Content, Social Media, Operations and Graphics.

Within the Institution's Innovation Council (IIC), several committees play crucial roles in driving innovation and entrepreneurship initiatives forward. Here are the six committees typically found under the IIC framework:

- **Startup Cell:** This committee focuses on nurturing and supporting startup ventures within the institution, providing resources, incubation, mentorship, and networking opportunities to aspiring entrepreneurs.
- **Documentation and Content:** Responsible for documenting the activities, achievements, and best practices of the IIC, as well as creating content for publications, reports, and promotional materials.
- **Social Media:** Manages the IIC's presence on various social media platforms, engages with stakeholders, and disseminates information about events, initiatives, and opportunities to a wider audience.
- **Graphics:** Design visual content, including posters, flyers, banners, and digital graphics, to enhance the visibility and branding of the IIC's activities and events.
- **Operations:** Handles the logistical aspects of organizing events, workshops, and meetings, ensuring smooth coordination and execution of activities within the IIC framework.
- **Marketing:** Develop marketing strategies and campaigns to promote the IIC's mission, attract participants to events, and raise awareness about opportunities for students and faculty to engage in innovative initiatives.

Within each committee under the IIC framework, the following positions can be established to ensure effective operation and coordination:

1. **Committee Mentor:** At the top of the hierarchy is the Committee Mentor or Student Coordinator, who provides guidance, support, and mentorship to the committee heads and members.
2. **Committee Heads:** Each committee is led by 2-3 Committee Heads, who oversee the overall functioning of the committee, set objectives, and delegate tasks to subheads and members. Committee heads are responsible for implementing the committee's initiatives and reporting progress to the committee mentor.

3. **Committee Subheads (Appointed Quarterly):** Subheads are appointed quarterly to assist the committee heads in executing the committee's initiatives effectively. The appointment of such subheads also rewards exceptional committee members.
4. **Committee Members:** Committee members actively participate in the activities and initiatives of their respective committees, contributing their skills, expertise, and enthusiasm to achieve the committee's objectives.

A new team is assembled quarterly to execute events within the Institution's Innovation Council (IIC). The hierarchy for event execution is structured as follows:

- **Conveners:** At the top of the hierarchy are two student coordinators appointed as Conveners for the quarter. They are responsible for overseeing the planning, coordination, and execution of the events. The Conveners provide strategic direction, ensure adherence to timelines, and liaise with other committees and stakeholders to ensure the success of the events.
- **Organizing Secretaries:** The Organizing Secretaries work closely with the Conveners to manage the logistical aspects of the events. They oversee tasks such as resource allocation, budget management, and coordination of event logistics. The Organizing Secretaries play a key role in ensuring smooth operations and timely execution of all event-related activities.
